

BOO MEN STIMULANTS

BOO delay spray / gel has a mild anesthetic effect that helps to delay the orgasm. Results in longer sessions of sexual pleasure.

BOO delay spray / gel's unique formula helps to prevent a premature ejaculation. The spray is easy to dose and makes the penis less sensitive, whereby a premature ejaculation is delayed. Extends the sexual intercourse and makes it more intense.

How does the product work?

Apply a desired amount onto the intimate area. The product is easy to apply and quickly adsorbed based on natural extracts, which are neutral to the skin. Laureth-9, Avena Sativa Kernel Extract and Hypericum Perforatum provide a mild anesthetic effect and helps with the delay of the ejaculation.

BOO erect / enlargement cream makes an erection stronger, thicker and firmer.

This cream contains a unique combination of natural ingredients, which stimulate the blood circulation and support the function of the erectile tissue. **BOO erect / enlargement cream** helps the penis to reach its maximum thickness and strength.

How does the product work?

Apply a desired amount of the cream on and around the penis. The product is convenient and efficient in use thanks to the user-friendly packaging. The cream is developed based on natural plant extracts, including Ginkgo Biloba. The working components of Ginkgo Biloba provide a better blood flow to the male genitals and therefore have a positive effect on the erection. The nourishing properties of Sweet Almond Oil, Shea Butter, Jojoba Seed Oil and Arnica Montana improve the flexibility of the skin and support a sustained erection.
