

BOO SILICONE BASED LUBRICANT

BOO silicone based lubricant is an intimate lubricant with a unique gliding texture that is specially formulated for long lasting enjoyment.

This intimate lubricant has a moisturizing effect. It gives more comfort during sexual activities and complements the natural body moisture, which makes the sexual intercourse more intense.

BOO silicone based lubricant does not get adsorbed by the skin thanks to the silicone-based texture, which causes a long-lasting pleasurable gliding and silky feeling. This lubricant can also be used in combination with latex condoms.

How does the product work?

Apply a desired amount of the lubricant onto the selected body parts and spread it onto the skin. The gel-like silicone-based formula gives this product a light and easy spreadable texture, which is neutral to the skin. This lubricant creates a silky and comfortable feeling during use.

Ingredients: Cyclopentasiloxane, Dimethicone

50 ml • # 251976
