

BOO WATERBASED LUBRICANT WARMING

BOO water based lubricant warming is an intimate lubricant that ensures natural pleasure thanks to the unique gliding texture. The pleasant warming effect on the skin guarantees even more excitement.

This intimate lubricant has a hydrating and moisturizing effect. It provides more comfort during sexual activities and complements the body's natural moisture, making sexual intercourse more intense.

BOO water based lubricant warming ensures more erotic pleasure for both partners. This lubricant can also be used in combination with latex condoms.

How does the product work?

Apply a desired amount of the lubricant onto the selected body parts and spread it onto the skin. The water-based formula gives the product a light and easy spreadable texture, which is neutral to the skin. This lubricant creates a soft and comfortable feeling during use.

A water-based formula like this will be largely absorbed by the skin over time. Apply extra lubricant during use if desired to ensure a continuous pleasurable gliding. This lubricant can be easily washed off if necessary. The special ingredients including Benzyl Nicotinate provide a pleasant warming effect on the skin.

Ingredients: Aqua, Glycerin, Hydroxyethylcellulose, Benzyl Nicotinate, Carbomer, Citric Acid, Polysorbate 80, Propylene Glycol, Tromethamine, Potassium Sorbate, Sodium Benzoate
