ZERO TOLERANCE

Product Specifications:

Material: ABS Plastic & Silicone
Battery: 2 AAA batteries,
not included

USAGE INSTRUCTIONS

Note: This device requires 2 x AAA batteries which are not included.

Open the battery compartment on the Control Head and insert two AAA batteries. Close the compartment. Attach the Control Head to the Pump Tube and screw clockwise to lock into place. Attach the Silicone Entry Ring to the other end of the Pump Tube. This completes the assembly.

Place penis into the tube through the silicone ring, then operate the pump by using the buttons on the Control Head. Press the Power Button for at least 2 seconds to engage the motor. The Indicator Light will go on and suction will begin in the tube. When finished pumping, or if suction becomes too intense, press the Release Valve Button to stop suction immediately.

Clean by removing Silicone Ring and Pump Tube from the Control Head and wash them with toy cleaner or soap and water and a warm water rinse. Do not wash the Control Head.
