

DREAM TOYS LAY-ON KITTY PLEASER

The Lay-on Kitty is a triple pleaser, made of body safe silicone, able to stimulate the clitoris and the G-spot at the same time. The insertable part of the device has ridges to stimulate the G-spot, while the bigger extension with its cute kitty face and ears vibrates on the clitoris. The Lay-on Kitty comes with a remote controller to easily choose from the 9 different vibration functions. The toy can also be used without the remote, operating the button on the clit stimulator. The tiny beaded tail can be used for anal stimulation.

Press and hold the power button on the toy for 3 seconds to put it into standby mode. Press and hold the power button on the remote controller for 3 seconds to activate. Press the function button on the controller to choose a vibration setting. The program can also be changed by pressing the power button on the stimulator. This way, the Lay-on Kitty can also work independently from the remote. The device can be paused and reactivated directly within 20 minutes with the remote control. Otherwise the toy will be off and you'll need to press the power button on the vibrator again first.
