

GODDESS COLLECTION ATHENA

This waterproof rabbit vibrator is made of body safe 'liquid' silicone, which makes it very soft to the touch. It feels like the real thing. The clitoris stimulator is not the usual rabbit but a spinning wheel with little tongues that mimic licking. The 2 powerful motors offer 3 levels of steady vibration and 7 different rhythms. Another special feature of the Athena is the moving beads function. There are beads in the shaft that follow the motions of the vibrations. Press and hold the power button for 2 seconds to turn the unit on/off. Press the function button to start and switch the vibration patterns and moving beads speeds. Short press the lower button to cycle through the clitoral spin wheel modes.

FEATURES

- 2 powerful motors
- 10 vibration patterns
- Moving beads
- Spin wheel mimicking oral stimulation
- Liquid silicone
- Waterproof IPX7
- Magnetic USB charger
- Charging time: 4 hours
- Play time: 1 hours
