

GP DATEX & LACE MINI DRESS

This black Datex mini dress has a lace panel on the left hip and a lace panel at the top that partly reveals the breasts. On the right side the lace continues over the shoulder, on the left side the shoulder strap is made of Datex material. This asymmetrical mini dress from the Guilty Pleasure collection will draw attention to all the female curves and combines the shiny look of latex elegantly with soft lace.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside.

Datex is comfortable to wear, it has that exciting look of latex, but not the disadvantage of being sticky and sweaty. It is easy to put on or take off without any additional dressing aids or conditioners. Datex provides great comfort, softness and flexibility, and at the same time the fetish look and touch that make latex so unique and appreciated.
