

### GP PRINTED DATEX LONG DRESS PURPLE

A spectacular outfit, this printed Datex dress with a striped pattern in purple! The latex printed stripes allow to see through the transparent black fabric. There is V-shaped area on the front without print and on the back the stripes from the left and right side join at the waist. Because of the stretchy material on which they are printed, the stripes follow all the body curves smoothly. There are no zippers or other closures, as the material is highly elastic and flexible. So it is easy to put the dress on or take it off, and it is comfortable to wear. A sexy long dress from the Guilty Pleasure Printed Datex collection, for women who love to attract attention.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects.
