

GP PRINTED DATEX DRESS YELLOW

A real eye catcher, this printed Datex dress with a curly pattern in yellow! The elegant latex print allows to see through the transparent black fabric. The latex print under the breasts gives the impression of cups in the dress. The back panel is slightly longer than the front panel. There is also latex printed along the hem, along the sides and at the cleavage. The dress has no zippers or other closures, as the material is stretchy and flexible, easy to put on or take off and comfortable to wear. A sexy dress from the Guilty Pleasure Printed Datex collection, for women who love to stand out.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects.
