

## GP PRINTED DATEX DRESS CURLY PATTERN

This sleeveless dress with a curly pattern looks elegant and striking at the same time. The dress has a curly pattern in black latex, which allows to see through the transparent black fabric. The ruffled skirt of this dress is short at the front and longer at the back side. There are no zippers or other closures, as the material is flexible and highly elastic. This makes it easy to put the dress on or take it off, and comfortable to wear as well. A sexy gown from the Guilty Pleasure Printed Datex collection.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects.
