

GP PRINTED DATEX STRIPED TEDDY

This sleeveless body from the Guilty Pleasure collection has a striped latex print in a sexy open pattern on a transparent knitted fabric that is highly elastic. The material is flexible and stretchable, ensuring great wearing comfort. The red Datex print has a stripe from the crotch going up and splitting at the bust, a round neck at the front and a V-neck at the back side. The other stripes have a feather like pattern. The body has no zipper or buttons. Thanks to the elastic material it is easy to put on or take off.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects.
